Please check the latest technical information on our websites www.gerflor.co.uk & www.gradus.com or with a sales advisor prior to ordering.

Gerflor & Gradus – The Retail Specialists

With over 100 years' of combined experience in the retail sector, together we have built an unrivalled reputation for quality and service. This product guide is an overview of our floor and wall solutions.

The **Gerflor** group is well known as a credible and valued supplier of complete flooring solutions designed specifically for the retail market. The constraints of safety, durability and time are part of mandatory characteristics for this sector. Our expertise allows us to offer numerous flooring products suitable for all areas of a retail facility. Whilst maintaining the technical performance and the design aspect of our floorcoverings, Gerflor manufacture ranges with the environment in mind, as well as the health and wellbeing of end users. We have recognised brands ideal for many environments, including our Mipolam, DLW, Tarasafe, Taraflex®, Latour 2 and GTI flooring ranges.

Gradus is a UK manufacturer of contract interior solutions, these include wall protection, stair edgings, floor trims, barrier matting and LED lighting. Gradus control the design from initial concept through to finished products including specialist CAD design and the manufacture of tooling. This ensures that quality is maintained and provides customers with an efficient, flexible, and fast service. We also offer site survey, project management, and installation services for our wall protection, entrance matting and lighting products. We have recognised brands ideal for many environments, including XT™, SureProtect Endure®, SureProtect Pure®, SureProtect Design®, Artworx™, Mat-in-a-Box™.

Many years understanding the Retail sector has shown us the key considerations required to deliver a successful contract interior project.

Welcoming & attractive environments

Gerflor and Gradus offer a wide range of design driven products for all areas in a retail facility, perfect for creating an inspiring, engaging and unique space. Choose from a large range of designs across our flooring and wall cladding products, or for something truly individual use our bespoke Myfloor and printed wall cladding services.

Reducing life cycle costs

Highly active environments with frequent movement of both equipment and people, requires durable and easy-to-maintain materials. To address this, Gerflor flooring products are made from high-quality durable materials. Gradus wall protection, matting and stair nosings can also play a significant role in reducing life cycle costs by decreasing maintenance and repair expenses.

Reducing the risk of slips, trips and falls

According to the Health and Safety Executive (HSE), slips and trips account for over a third of all major injuries in the workplace. Gerflor flooring has been developed to offer excellent slip resistance. Gradus' uniquely designed XT stair edgings also play a crucial role in preventing slips, trips and falls on stairs.

Low cost and maintenance

Gerflor's patented flooring surface treatments and unique clean corner system, facilitate quick and efficient cleaning as well as providing unrivalled stain resistance. Coupled with Gradus' wall cladding and matting solutions, surfaces are protected, therefore reducing life cycle costs by decreasing maintenance and repair expenses.

Sustainability

Gerflor and Gradus offer a range of environmentally friendly flooring, wall covering, and accessory solutions that incorporate recycled materials, are recyclable at the end of their life, and are both durable and low maintenance. These products and sustainable initiatives play a crucial role in supporting the transition towards a net-zero UK.

GRADUS

Gerflor teams have always considered customers and the environment as their absolute priorities. Our floor coverings, wall solutions and finishing components are user friendly, healthy solutions. They are designed with respect for our planet to last as long as possible with proposed end-of-life options. From product design through end-of-life, the circular economy is a core priority for the group. We have determined key commitments to guide our environmental management up to 2025.

At Gradus, we care deeply about our planet and our role in its future. We are committed to reducing our environmental footprint and enhancing our positive impact. By 2025, we aim to achieve ambitious targets such as reducing carbon emissions, waste, water usage, boosting recycling, using green energy, and giving back to society & local causes. As an ISO 14001:2015 certified company, we can show our actions and assess our outcomes on the environment from our operations, products and services.

Gerflor and Gradus Services

Technical and Specification Support Specialists

Our dedicated retail specialists can assist you with all your specification needs. Whether it's a new build or refurbishment project we have the expertise and innovations to meet all budgets. Hand in hand with our partners, we work together to propose the optimum solution for the client's needs, utilising the most appropriate safe, durable and sustainable solutions for the specific applications. We don't stop at just providing specification advice, we can also provide a free site survey, we will visit, assess and audit the facility and make improvement suggestions to future proof the building interiors.

The Technical Support team is available to offer advice on the specification and installation of products, including guidance on the latest retail building standards and legislation. Be rest assured that Gerflor and Gradus have a world-class pedigree of products that are tried and trusted to deliver every time. All backed up by a network of technical, specification and customer support teams.

Sampling Support Services For Every Need

We offer a free sample service for all our retail clients. Whether it's a range overview binder, loose sample (standard or bespoke), supporting literature or if it is something bespoke you need like a mood board or test material, contact us and we will aim to supply the sample for your required need. To request a sample, literature or anything else, email contractuk@gerflor.com or imail@gradus.com or call **01625 428922**

Local stock for Retail Best Sellers

We have stock in place locally in the UK for our best selling retail ranges. A new warehousing and distribution facility based in Winsford offers a broad range of in-depth stock to provide an enhanced service level to our customers. Essential when time is of the essence and our customers need innovative products and fast delivery for those essential quick turnaround projects. Speak to our retail specialists for stock availability or any further information needs.

Specification Documents and BIM Objects

As an NBS partner you have access to a single source for product information and incorporates the Gerflor and Gradus products. NBS Source provides an additional level of enhanced product data, in a consistent, structured format that will integrate seamlessly into your project workflow.

Retail Lunch & Learn Sessions

Our retail specification experts are available to help our customers with developing their knowledge in flooring, finishing and accessory solutions.

To book a Lunch & Learn, contact our Technical Support department on 01625 428922 or Email: contractuk@gerflor.com or imail@gradus.com

CPD's and Training

As members of RIBA CPD Providers Network we offer a full range of RIBA assessed and approved CPD seminars covering: Vinyl Flooring, Sports Flooring, Matting, Wall Protection, Stair Edgings and Industry specific CPDs such as Healthcare and Industry.

To book a CPD Seminar, contact our Technical Support department on 01625 428922 or Email: contractuk@gerflor.com or imail@gradus.com

Mat-in-a-Box® 5000 Hybrid Matting

Mat-in-a-Box® 5000 is a modular barrier matting system that is quick and easy to install. The individual sections clip together on-site for simple assembly. The wipers are available in a choice of colours from the Boulevard 5000 range which retains dirt and moisture, improving the appearance of internal floor coverings and preventing unnecessary replacements.

For more information visit www.gradus.com

GRADUS

Esplanade 5000 Primary Barrier Matting

Esplanade 5000 is a primary barrier matting system that is available in 12 and 18mm thicknesses with an open or closed construction. The wipers are available in a choice of colours from the Boulevard 5000 range. Esplanade 5000 is tested to withstand weights of up to 150kg per wheel (up to 600kg over 4 wheels) dependant on configuration and finish and has also been tested for flammability and slip resistance.

For more information or to see the full range visit www.gradus.com

Boulevard™ 5000 Secondary Barrier Matting

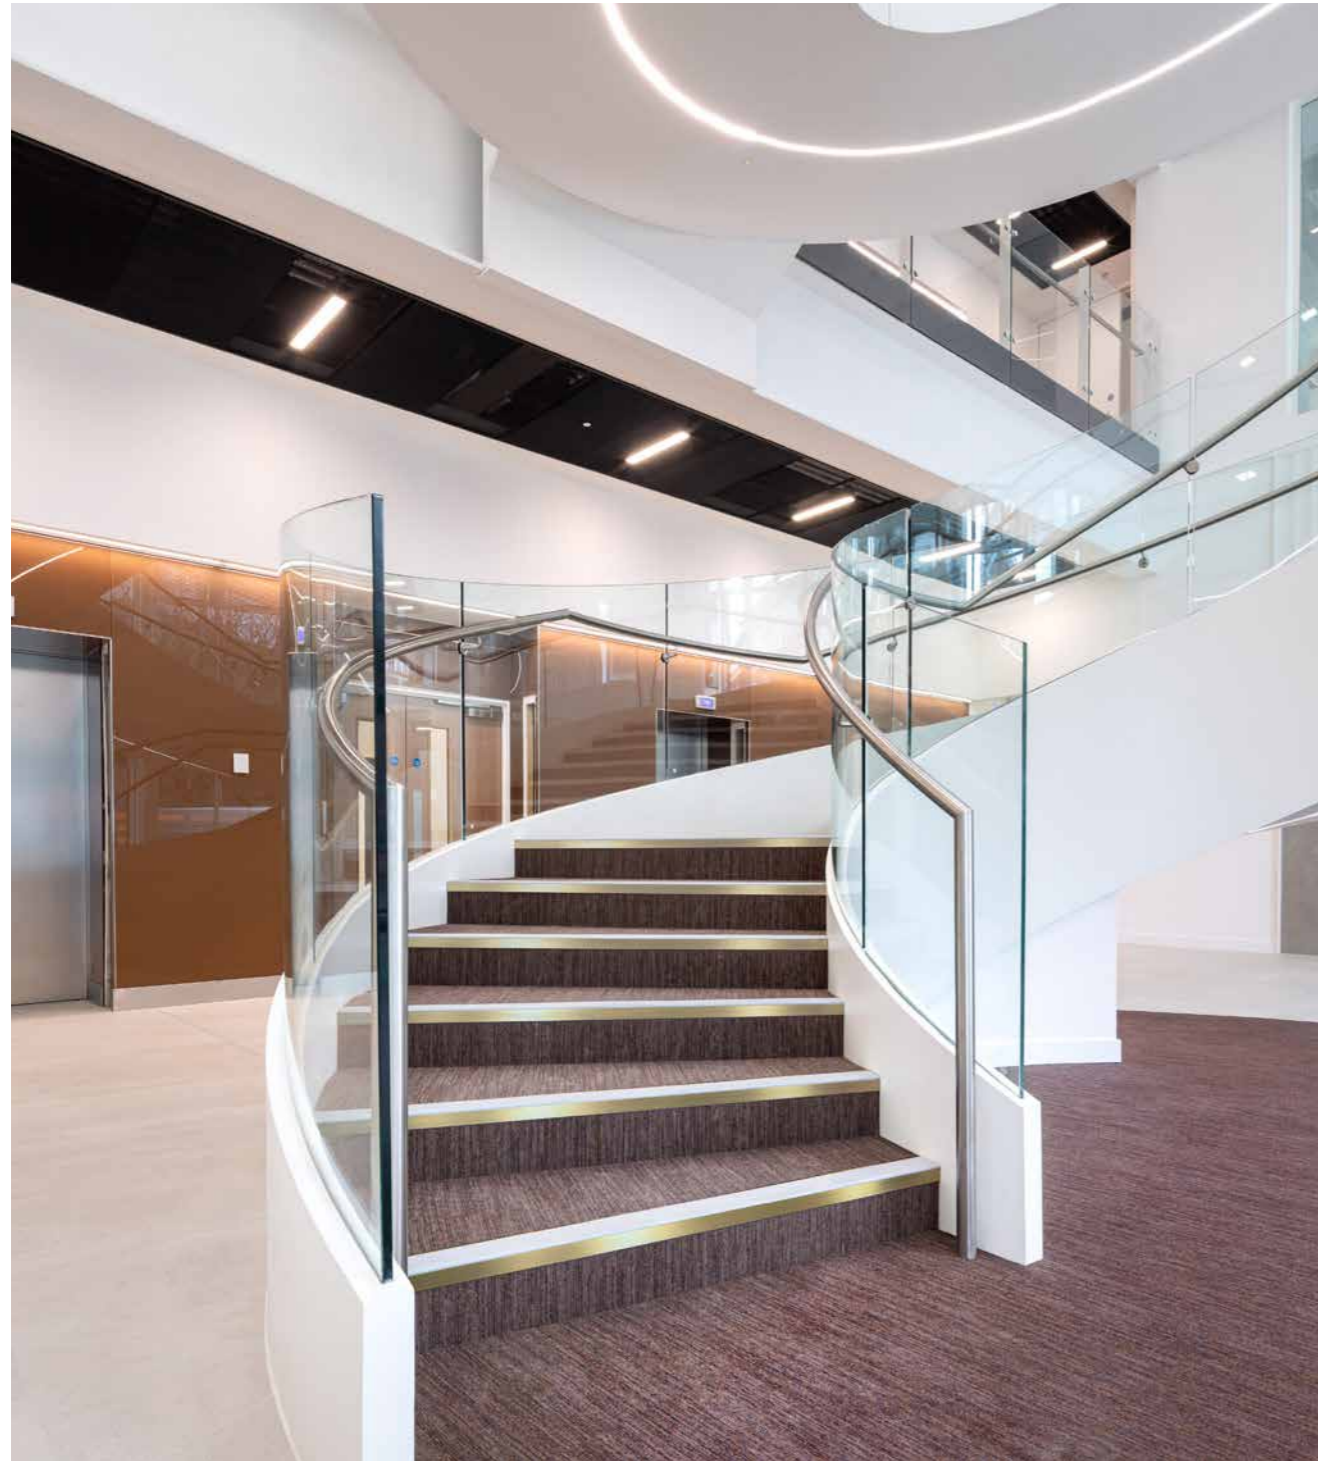

Boulevard 5000 is constructed from ECONYL Regenerated Solution Dyed Nylon and incorporates a scraper fibre for optimum dirt removal and moisture retention. It is easy to maintain and resistant to bleach solutions.

NEW

Metal Castellated

Conditions: Interior Dry / Interior Wet
Material: Bronze or aluminium
Provides an all-metal solution that features a castellated design.

Polished Bronze	Satin Bronze
Aluminium	Brushed Stainless Steel
Antique Brass	Antique Bronze

Transition Strips

Gradus offers a wide range of transition strips that reduce the risk of accidents for pedestrian traffic by providing a safe link between floorcoverings. Available in a variety choice of shapes and colours, transition strips can be selected to either blend in with the surrounding floorcoverings or act as a highlight to help determine walkways and other circulation areas.

SureProtect Endure™ Wall Cladding

A range of PVC Wall Protection, Corner Guards, Wall Strips, Kick Plates and textured sheets are available in a variety of styles and heights, which are ideal for reducing maintenance costs and preserving interior appearances.

Full range of colour options available on our website

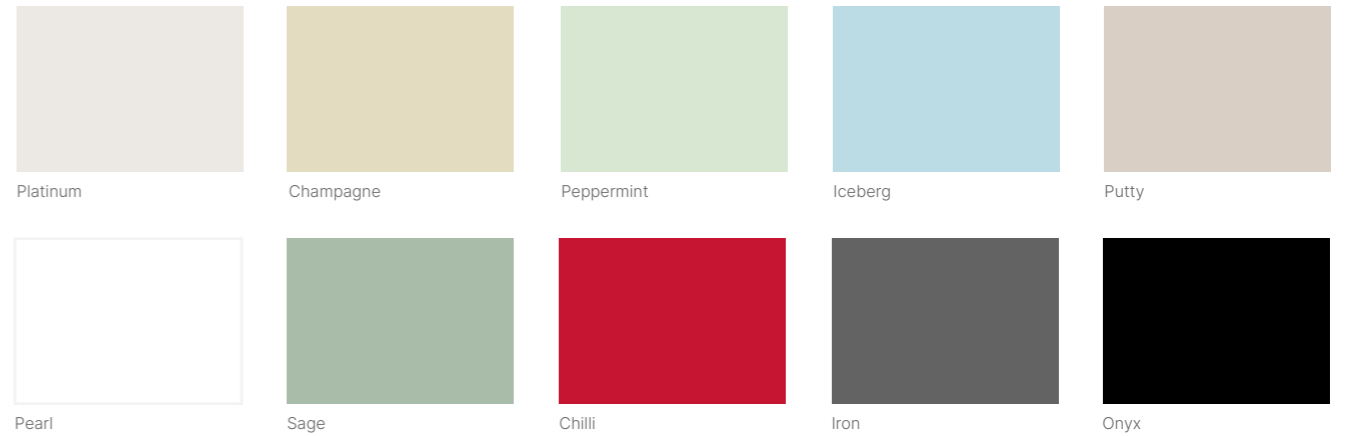

For more information visit www.gradus.com

SureProtect Pure™ Hygienic Wall Cladding

Creates an impermeable barrier to moisture and bacteria. The smooth, easy to clean surface is an excellent alternative to ceramic tiles, removing the need for grout which can harbour bacteria. Ideal for back of house retail applications such as Commercial Kitchens, Canteens & WCs.

Full range of colour options available on our website

For more information or to see the full range visit www.gradus.com

Corner Guards, Wall Strips & Kick Plates

Perfect for any retail application including front and back of house, supermarkets, shops, boutiques, service areas, corridors and staff rooms. Available in 34 colours to suit any branding or design scheme.

Wall Protection - Internal

Rubber Wall Guards & Corner Guards

Gradus heavy duty rubber wall and corner profiles have been developed to offer superior protection against severe damage caused by wheeled traffic, such as trolleys and carts. Suitable for use in areas such as manufacturing, warehousing and loading bays, back of house retail and service corridors.

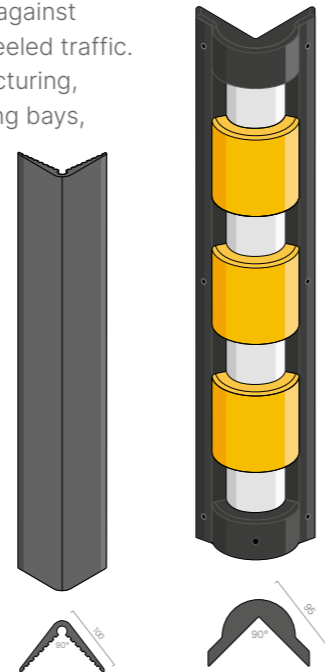

WGR Rubber Wall Guards

Suitable for both interior & exterior environments. Can be fixed to practically any substrate, including concrete, brickwork and blockwork.

Rubber Corner Guard

Heavy duty protection against damage caused by wheeled traffic. Ideal for use in manufacturing, warehousing and loading bays, back of house retail, hospital service corridors and car parks.

For more information visit www.gradus.com

Wall Protection - External

Safety & Protection Systems

Gradus Safety & Protection Systems are designed to protect buildings and equipment from damage by providing both a visual and physical barrier to impact, and also help to minimise damage when impact does occur. Pedestrian safety is also improved by keeping vehicles and pedestrians separate which helps to minimise the risk of accidents. This comprehensive range is ideal for applications such as service areas, loading bays and car parks.
