

CLIENT: WHITWORTH PARK SCHOOL, SPENNYMOOR  
SOLUTION: GTI MAX

“ GTI Max allowed us to go over the top of the existing Granwood floor finish without any subfloor preparation or having to remove it whilst still allowing the existing floor finish to breathe ”

Philip Etherington, Senior Building Surveyor,  
Durham County Council Design Services

Whitworth Park School and Sixth Form College in Spennymoor, just south of Durham, provides an environment where they strive for 'excellence for everyone'. It's an ethos that's based on a clear vision and ethical values. The school previously had a new block constructed during the Building Schools for the Future programme. The remaining part of the works required the fitting of new floor coverings to the circulation routes of the old block that would continue to be retained.

It was in a sense, the old meeting the new and a project that would have to be completed quickly to avoid disruption and any shut down to the education facility. The requirement for a fast track flooring and durable solution would be well-suited to international flooring specialist Gerflor who would supply their amazing GTI Max flooring. This would prove it's worth in saving both time and money for Durham County Council as there was no need for the school to close with the installation being completed in only four days.

“ As a school we are very impressed and delighted with the Gerflor GTI Max flooring aesthetics and overall performance and are happy to recommend it to other institutions ”

David Stone, Interim Headteacher, Whitworth Park School and Sixth Form College
